June 30, 2026

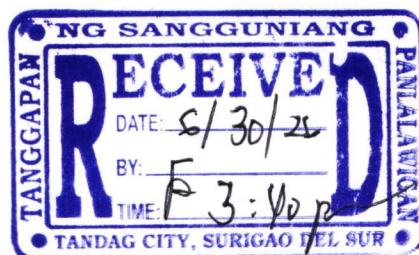

Refer To: Committee on Energy and Power

THE COMMITTEE ON ENERGY

Tanggapan ng Sangguniang Panlalawigan
Province of Surigao del Sur
Capitol Hills, Tandag City

Dear Honorable members of the Committee on Energy:

Good day.

Attached herewith are copies of our inventory and assessment of vegetation obstructions along and beneath our backbone line corridor within the franchise area of SURSECO II. We also indicate the estimated cost per hill or tree of vegetations.

At this moment, we are in the process of completing the identification of land and plant owners within our inventory. Rest assured that we will submit the same once completed.

We hope this will merit your end. Thank you very much.

Cooperatively yours,

ROEL E. ABAD
General Manager

Carrascal, Cantilan, Madrid, Carmen, Lanuza
Central Area:
Cortes, Tandag City, Tago, San Miguel
South Area:
Bayabas, Cagwait, Maribetog, San Agustin, Lianga

Executive Summary

An inventory of vegetation obstructions was conducted along the primary distribution line corridors of SURSECO II covering the service areas of Carrascal, Madrid, Tandag, Cagwait, and Lianga Substations. The assessment identified various vegetation species encroaching upon the prescribed power line clearances, including non-fruit bearing trees, fruit-bearing trees, coconut trees, and clustered bamboo trees.

The inventory recorded a total estimated clearing requirement amounting to ₱2,990,900.00. These obstructions pose risks to the reliability of electric service by increasing the likelihood of line contacts, feeder outages, equipment damage, and safety hazards, particularly during strong winds and severe weather disturbances.

Substation	Feeder	Area Coverage	Vegetations/Obstructions	Quantity	Estimated Cost	Estimated Amount
Carrascal Substation	Feeder 1	Along Surigao - Davao Coastal Rd. from Brgy. Saca - Brgy. Adlay, Carrascal, Surigao del Sur	Non Fruit Bearing Trees	240.00	1,000.00	240,000.00
			Fruit Bearing Trees	58.00	500.00	29,000.00
			Coconut	143.00	500.00	71,500.00
			Bamboo	2.00	1,600.00	3,200.00

			Bamboo	1.00	1,600.00	1,600.00

Notes*

1. Inventory was conducted through actual field inspection by the ROW Committee and assigned technical personnel.
2. Estimated costs are based on prevailing vegetation clearing rates approved and adopted by SURSECO II
3. Quantities represent the actual number of identified vegetation obstructions requiring trimming or removal within the distribution line corridor.
