AT THE BACK...

RATIONALE:

- **Hon. Matias V. Caybot, SB Member,** reminded Apolaki to submit an updated company profile reflecting the change of address from Soriano, Tagbina, to Barangays Guinhalinan and Javier. The Apolaki representative explained that the company was still awaiting the official release of the amended project area and updated address and committed to furnishing the LGU with copies once available.
- **Hon. Gupana, Barangay Kagawad of Javier and Chairperson on Health,** raised concerns regarding potential health and safety risks associated with the operation of the proposed solar power facility. **The Apolaki representative** assured the Committee that the facility would operate similarly to household solar installations and stated that it would not pose radiation-related risks.
- **Hon. Caybot** inquired about the company's social responsibility programs and the benefits that would accrue to the host communities. **Ms. Dolly, representative of Apolaki,** stated that the company intended to prioritize local employment, targeting 70% local hiring, and outlined the following proposed corporate social responsibility initiatives:

    1. Educational assistance and scholarship programs;
    2. Support for senior high school students;
    3. Assistance for sports facilities and activities;
    4. Medical missions;
    5. Cultural preservation and promotion;
    6. Environmental initiatives, including tree planting; and
    7. Assistance during calamities and disasters.

- **Hon. Moran of Barangay Guinhalinan** emphasized the need for a mutual agreement between Apolaki and the Barangay Local Government Units (BLGUs) of Guinhalinan and Javier to formalize their respective commitments and responsibilities. **The company** expressed its willingness to establish partnerships with the concerned BLGUs and agreed to hold a separate discussion with the electric cooperative as project implementation approaches.
- **Ms. Cabusas, the Municipal Assessor** observed that certain affected properties appeared to lack Tax Declaration numbers, raising the need for further verification and clarification of their tax declaration and assessment records.
- **Representatives from DENR-CENRO and DAR** expressed their willingness to assist the project proponents, provided that all applicable documentary requirements, regulatory standards, and legal conditions are duly complied with.

Other matters were discussed.

CONCLUSION

The Committee recognizes the potential economic and employment benefits of the proposed Titan V Solar Project and recommends the approval of the proposed Ordinance authorizing the reclassification of the identified agricultural lands to industrial use for the Titan V Solar Project, subject to compliance with all applicable legal, technical, environmental, and regulatory requirements.
